ACADEMIC PLAN 2019-20

ACADEMIC PLAN 2019-20

In a fast changing environment stemmed from the steady bombardment of information technology, the Faculty Members in Colleges and Universities need to redefine themselves. Time has arrived to grasp the inputs that ensure their optimal performance with genuine purpose which finally get applauded both by the student and community at large. Faculty Members should exhibit the interest for updating their knowledge, expresses the interest for disseminating knowledge and to be a role model when there is excessive degradation of human values and culture. Thus the primary duty of the teaching community is to effectively conduct the academic sessions assigned to them by the Institution/University. The other duties assigned by the institution will be of secondary importance. Faculty Members should achieve this desired objective without ignoring the other qualities/interests of the students.

THE FACULTY MUST BE VIGILANT ABOUT THE FOLLOWING THINGS.

1. Treat the students as our own children.

2. Discuss them about educational and career planning.

3. Understand the experiences and difficulties to be faced by them.

4. Evaluate academic performance at least three times per semester.

5. Provide assignments and evaluate on time.

6. Find weak students and bring them forward.

7. Find slow learners and provide help.

8. Find good learners and seek their help to improve the slow learners.

9. Make the classrooms live with interactions.

10. Provide a syllabus and give the details of books for reference

11. Faculties attend every class on time.

12. Develop and practice good listening skills.

13. Provide textbooks from the Dept. library for the poor and needy students.

14. Convene Dept. meeting regularly and evaluate portions completed and to be completed within the stipulated time.

15. Don't let the students free in the morning hours.

16. Every month the Tutor should interact with the students. This will help the Tutor to know the personal problems faced by the students.
